The in-wall or concealed cistern Baltimore suite is the most premium in the Baltimore range, and will result in the most superior high-end look once installed. The hidden flush creates an uncluttered, hotel like luxury that can also make the space feel bigger. The in wall cistern is available in various button options to perfectly match with the rest of your bathroom design.

Featuring a streamlined design, gloss white finish and a pan that is floor standing. At the convenience and simplicity of no rim, the rimless toilet makes for a significantly easier clean inside the pan. With a direct flush technique, the flush washes the entire pan more efficiently stopping the build-up of grime, bacteria and limescale that would be found in toilets with a rim. The concealed cistern means there is no space behind the pan or around the cistern for dust and grime to accumulate, making cleaning the exterior of the toilet a lot easier.

P Trap - 180mm

S Trap - 90-150mm P to S Trap converter (included)

*See item image for specification information*

\* inwall cisterns, valves, seats, button assembly, links, flush pipes and other internal components which carry a 3 year replacement warranty.

\*Please note that for ceramic products, specifications must allow +/- 10 mm tolerance for manufacturing variance, it is recommended to use measurements of the actual product received. Colours displayed online may appear different due to screen settings.

**Hygiene**  
The rimless design allows for a superior flush on the entire bowl, eliminating the possibility of the rim being a source of contamination. The rimless design is easy to clean & has no hidden recesses for grime & bacteria.

**Quality Flushing**  
The rimless design of the toilet provides a superior flush, reducing the need for multiple flushes & reducing the risk of contamination from the rim.

**Soft Close**  
The soft close seat allows the seat to close slowly, preventing any damage to the seat or the toilet bowl. The soft close seat is also available for the toilet bowl.

**User Friendly**  
The toilet is designed to be user friendly, with a soft close seat & a soft close lid. The toilet is also designed to be easy to clean.

**Easy To Clean**  
The high gloss finish has been specifically designed to resist dirt, staining, mould & odours. The smooth surface is easy to clean & the toilet is also designed to be easy to clean.

**Water Efficient**  
The toilet and shower dual flush system provides a superior flush with the use of 4.5L per full flush & 3L per half flush. This helps to reduce water usage while providing efficient flushing.
