Get the latest frameless look for your new shower room by installing your shower screen directly onto the tiled floor, leaving your room feeling more open and appearing more spacious. Made from 10mm toughened glass your shower not only has a clean finish that is easy to clean, but this set comes with seals designed to make the shower screen watertight. Our shower screens come with a standard chrome hardware, including a standard chrome handle. Alternative hardware and handle options include standard black hardware including a black standard handle, and a L-shape door handle in chrome or black. The L shape shower door handles provide extra space for fingers to grip even when hand strength is limited and is available in a chrome or black finish.

The actual installed size of this product is 1200x900x1900mm typically used for installation without a showerbase (instead of a smaller shower screen to fit a 1200x900mm base)- see our other listing for this model that can be installed onto a shower base. Tapware fittings shown in the photos are for illustration purposes only and are sold separately, add them to your order to complete your look.
