The Toronto range of sinks boast superior workmanship & quality finish. The ultra modern "cube" design is an elegant alternative for your modern kitchen & laundry. The clever design allows for the sink to be installed as a "top mount" or "under mount" into the bench to give you the finish that best suits your application. Our Toronto sinks have been hand made to provide you with a quality finish, maintaining precise joinery second to none. The edging is deliberately rounded for functionality and ease of cleaning, yet maintaining its true cube style for your aesthetic pleasure.

Featuring silencing pads around the outside of the sink, you can benefit from the reduction in noise from water and utensils. The special anti-condensation coating covers the silencing pad and outer surface of the sink, protecting your cabinet from sweating, potential damage or smells caused by condensed water, and as a bonus also helps with sound deadening.

Further enhance your kitchen experience with the additions of our sink accessories. Made to fit over your sink for ease, add a colander, a chopping board or both!

Suits: Toronto Chopping Board (A-3002) & Toronto Colander (A-3001)
