Our waterproof wall panels in tundra grey marble finish offers a balance of sophisticated design and purpose to your desired bathroom or laundry area. Waterproof shower panels are easy to install, providing a streamlined solution to enhance your bathroom without the hard work required for tiling and grout. These feature wall panels in a marble design can be installed over existing tiles, helping you reduce costs and meet tight deadlines without compromising quality.

Our PVC waterproof panels can be installed side by side to create a full wall solution, using a specialised 'tongue and groove system' these panels will make a watertight covering that is a easy to install. When installation is complete, you will discover these waterproof wall panels are a breeze to clean and maintain, thanks to their resistance to mould, mildew, dents and cracks. View our range of high quality wall panel designs that are sure to create a statement in your bathroom or laundry room for a portion of the price.

To install the patterned wall liners, additional panels will click together, so you will need to measure up the required amount of panels. To finish off the span you will need to install the [trim edge](#) and you may also utilise a [trim corner](#) depending on your application.

It is recommended to use 1-2 cartridges of [adhesive](#) when installing your 1000mm wet room wall panels.
