Our waterproof wall panels in Valentina Crema finish has been constructed from PVC to provide a durable and lightweight wall option that can withstand frequent use. The sophisticated design provides a combination of soft beige tones and a realistic marble pattern for a refined high end look for your wet room area. Our shower panels are easy to install, providing a streamlined solution to enhance your bathroom or laundry without the hassle of tiling and grout. These premium shower wall panels in a luxurious design can be installed over existing tiles, offering a cost effective option for renovation projects.

Our PVC waterproof panels can be installed side by side to create a full wall solution, using a specialised 'tongue and groove system' these panels will make a watertight covering that is a breeze to install. After installation is complete, you will discover our waterproof wall panels are a easy to clean and maintain, thanks to their resistance to mould, mildew, dents and cracks. View our range of high quality wall panel designs that are sure to create a statement in your bathroom or laundry room for a portion of the price.

To install the patterned wall liners, additional panels will click together, so you will need to measure up the required amount of panels. To finish off the span you will need to install the [trim edge](#) and you may also utilise a [trim corner](#) depending on your application.

It is recommended to use 1-2 cartridges of [adhesive](#) when installing your 1000mm wet room wall panels.

View our store to find a shower screen, shower head, or tap for your bathroom and save on combined delivery.
